TO ALL FERTILIZER REGISTRATION APPLICANTS

RE: DELAY IN ISSUING OF ACKNOWLEDGEMENT: SERVICE REQUEST FORMS

1. Due to the high volume of fertilizer GHS label amendment applications received in the last few weeks of September 2022, please note that there will be a delay in issuing of the signed and stamped service request form as acknowledgement.
2. As a standard operating procedure, all issued service request forms should be stamped and signed by the official issuing such form to the applicant.
3. The office of the Registrar will communicate with you once all the received applications have been administratively processed and acknowledged as per the set timeline
4. We apologies for the inconveniency that this may cause to you and your business.
5. Please do not hesitate to contact me for any challenges that you may face due to this delay.

Yours faithfully

D. MOTLOI
