Animal Diseases Act and disease of critical concern to SA

National SPS Workshop March 2021

Presentation outline

- 1. Legislation and International Standards
- 2. Do former OIE List A and B diseases
- 3. Zoning, Regionalization and Compartments
- 4. Controlled and Notifiable Diseases
- 5. Responsibilities of the owner
- 6. Responsibilities of the consulting vet
- 7. Responsibilities of State Vet

Legislation and International Standards

List A and B of the OIE

List A

Foot and mouth disease (Lost status) Swine vesicular disease (Free) Peste des petits ruminants (Free) Lumpy skin disease (Endemic) Bluetongue (Endemic) African horse sickness (Free) Classical swine fever (Free) Newcastle disease (Endemic) Vesicular stomatitis (Free) Rinderpest (Global Freedom) Contagious bovine pleuropneumonia (Free) Rift Valley fever (Periodic) Sheep pox and goat pox (Free) African swine fever (Present) Highly pathogenic avian influenza (free in poultry, Present ostriches)

List A and B of the OIE (cont)

Multiple species diseases

Anthrax (Endemic) Aujeszky's disease (Free) Echinococcosis/hydatidosis (Endemic) Heartwater (Endemic) Leptospirosis (Endemic) Paratuberculosis (Present) Rabies (Endemic)

Brucellosis (Bovine, Ovine, Porcine) TB (Endemic) Transmissible gastroenteritis (Absent) Porcine reproductive and respiratory syndrome (Absent) Cysticercosis (Endemic) Leishmaniosis (Endemic) Marek's disease (Endemic) Avian chlamydiosis (Endemic)

Zoning, Regionalisation, Compartmentalisation

ZONING AND REGIONALISATION

means <u>a part of a country</u> defined by the Veterinary Authority, containing an animal population or subpopulation with a specific animal health status with respect to an infection or infestation for the purposes of international trade or disease prevention or control.

COMPARTMENT:

means an animal <u>subpopulation</u> contained in <u>one or more establishments</u>, separated from other susceptible populations by a common <u>biosecurity management system</u>, and with a specific animal health status with respect to one or more infections or infestations for which the necessary surveillance, biosecurity and control measures have been applied for the purposes of international trade or disease prevention and control in a country or zone.

Controlled and Notifiable Diseases

Controlled Diseases

- Trade sensitive
- Collective effort
- Prescribed measures

Notifiable Diseases

- Preventable
- No prescribed measures
