 EMBARGO: 15:30

agriculture, forestry & fisheries

Department:
 Agriculture, Forestry and Fisheries
REPUBLIC OF SOUTH AFRICA

25 April 2013

The third production forecast for summer crops for 2013 is hereby released. /
Hiermee word die derde produksieskatting vir somergewasse vir 2013 vrygestel.

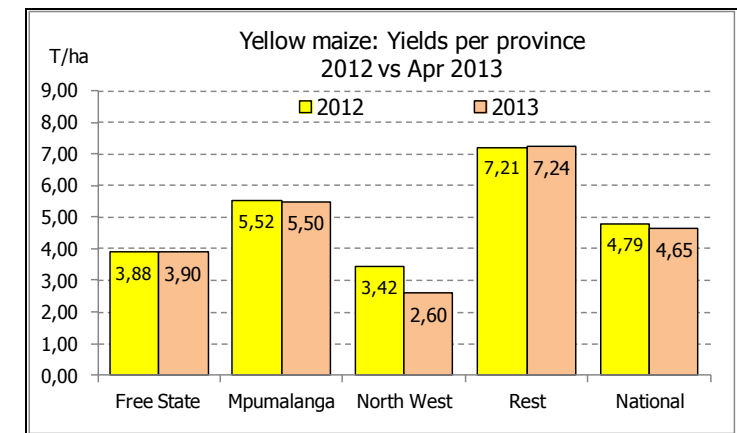

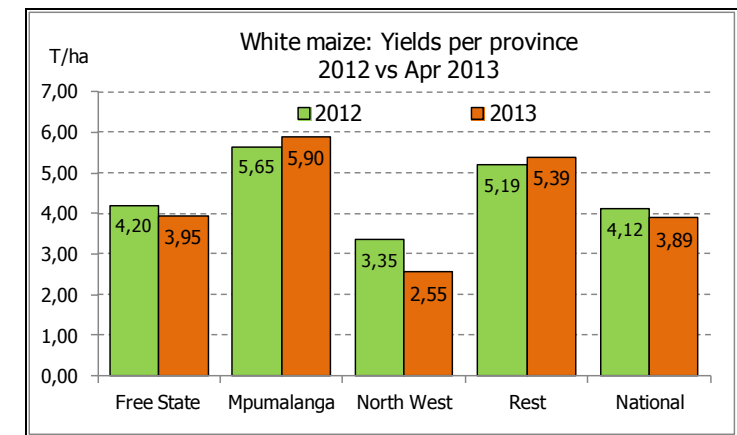

SUMMER CROPS – AREA PLANTED AND THIRD PRODUCTION FORECAST: 2013

SOMERGEWASSE – OPPERVLAKTE EN DERDE PRODUKSIESKATTING: 2013

CONFIDENTIALITY ISSUES that CEC members are committed to adhere to on the day of the meeting

- Personal items such as laptops, handbags, cell phones, etc. are not allowed in the venue during the meeting
- No member is allowed to leave the meeting before 12:00 in order to prevent disclosure of the information
- The embargo time for the release of crop estimates information is 15:30
- No member is allowed to discuss crop estimates information with anyone other than a member of the Committee before the embargo time
- Only the Chairperson, or a member appointed by the Chairperson, may release the figures to the media
- Members must regard the detail of any information that was collected for and/or discussed during the meeting, as confidential
- Individual information received for crop estimate purposes is treated strictly confidential, and is not divulged for any other purposes

**REVISED AREA AND THIRD PRODUCTION FORECAST OF SUMMER CROPS (2013)/
HERSIENE OPPERVLAKE- EN DERDE PRODUKSIESKATTING VIR SOMERGEWASSE (2013)
25 APRIL 2013**

Summer field crops – 2013

Commercial maize: The potential size of the maize crop was further decreased by 189 600 tons or 1,61% to 11,562 mill. tons as the dry conditions earlier this year in the North West and Free State provinces lasted longer than expected during the pollination and silking phase of the maize.

The area estimate for maize remained unchanged at 2,781 mill. ha, while the expected yield is 4,16 t/ha.

The area estimate for white maize is 1,617 mill. ha and for yellow maize it is 1,164 mill. ha.

The production forecast of white maize is 6,155 mill. tons, which is 2,40% less than the 6,307 mill. tons of the previous forecast. The yield for white maize is 3,81 t/ha as against 3,90 t/ha of the previous forecast. In the case of yellow maize the production forecast is 5,407 mill. tons, which is 0,70% less than the 5,445 mill. tons of the previous forecast. The yield for yellow maize is 4,65 t/ha as against 4,68 t/ha of the previous forecast.

Sunflower seed: The production forecast for sunflower seed is 554 500 tons, which remained unchanged from the previous forecast. The area estimate for sunflower seed is 504 700 ha, with an expected yield of 1,10 t/ha.

Other crops: The production forecast for **soya-beans** is 851 000 tons, which also remained unchanged from the previous forecast. For soya-beans the area estimate is 516 500 ha, with an expected yield of 1,65 t/ha.

The expected **groundnut** crop was left unchanged at 57 900 tons. The area estimate is 46 900 ha, and the expected yield is 1,23 t/ha.

The production forecast for **sorghum** is 168 114 tons, which remained unchanged from the previous forecast. The area estimate for sorghum is 62 620 ha, and the expected yield is 2,68 t/ha.

In the case of **dry beans** the production forecast was also left unchanged at 56 100 tons, with an area estimate of 43 550 ha. The expected yield is 1,29 t/ha.

Please note that the fourth production forecast for summer field crops for 2013 will be released on 23 May 2013.

Somergewasse – 2013

Kommersiële mielies: Die potensiële grootte van die mielie-oes is verder verlaag met 189 600 ton of 1,61% tot 11,562 milj. ton as gevolg van die droë toestande wat vroeër vanjaar geheers het tydens die bestuiwings- en baardvormingsfase van mielies in die Noord-Wes en Vrystaat provinsies.

Die skatting van die oppervlakte onder mielies is onveranderd gelaat op 2,781 milj. ha, terwyl die verwagte opbrengs 4,16 t/ha is.

Die oppervlak onder witmielies is 1,617 milj. ha en vir geelmielies is dit 1,164 milj. ha.

Die produksieskatting van witmielies is 6,155 miljoen ton, 2,40% minder as die 6,307 milj. ton van die vorige skatting. Die opbrengs van witmielies is 3,81 t/ha teenoor die 3,90 t/ha van die vorige skatting. In die geval van geelmielies is die produksieskatting 5,407 miljoen ton, wat 0,70% minder is as die 5,445 milj. ton van die vorige skatting. Die opbrengs van geelmielies is 4,65 t/ha teenoor die 4,68 t/ha van die vorige skatting.

Sonneblomsaad: Die produksieskatting vir sonneblomsaad is onveranderd gelaat op 554 500 ton teenoor die vorige skatting. Die oppervlakteskatting vir sonneblomsaad is 504 700 ha, terwyl die verwagte opbrengs 1,10 t/ha is.

Ander gewasse: Die produksieskatting van sojabone is 851 000 ton, wat ook onveranderd gelaat is teenoor die vorige skatting. Die oppervlakte beplant met **sojabone** is 516 500 ha, met 'n verwagte opbrengs van 1,65 t/ha.

Die verwagte **grondbone**-oes is ook onveranderd gelaat op 57 900 ton. Die oppervlakteskatting is 46 900 ha, terwyl die verwagte opbrengs 1,23 t/ha.

Die produksieskatting van sorghum is 168 114 ton, wat onveranderd gelaat is teenoor die vorige skatting. Die oppervlakteskatting vir **sorghum** is 62 620 ha en die verwagte opbrengs is 2,68 t/ha.

In die geval van **droëbone** is die produksieskatting ook onveranderd gelaat op 56 100 ton met 'n oppervlakteskatting van 43 550 ha. Die verwagte opbrengs is 1,29 t/ha.

Neem asseblief kennis dat die vierde produksieskatting vir somergewasse vir 2013 op 23 Mei 2013 vrygestel sal word.

Information is available on the internet at http://www.daff.gov.za/crop_estimates or <http://www.sagis.org.za>, as from **15:30** on the date of the relevant meeting of the Crop Estimates Committee.

Inligting is beskikbaar op die internet by http://www.daff.gov.za/crop_estimates of by <http://www.sagis.org.za>, vanaf **15:30** op die dag van die toepaslike vergadering van die Oesskattingskomitee.

The intentions to plant winter cereals for the 2013 production season is hereby released. /
Hiermee word voorneme om wintergewasse te plant vir die 2013 produksie-seisoen vrygestel.

INTENTIONS TO PLANT WINTER CROPS FOR 2013 / VOORNEME OM WINTERGEWASSE AAN TE PLANT VIR 2013
25 April 2013

Winter cereal crops – 2013

The intentions of farmers to plant are based on inputs as at the middle of April 2013, received from:

- Department of Agriculture, Forestry and Fisheries: Sample of producers; and
- Provincial Departments of Agriculture: PDA representatives.

The figures for wheat represent the total number of hectares that are intended to be planted for grain, excluding any hectares that will be planted for fodder and grazing.

Early indications are that producers intend to plant 516 600 ha of **wheat** for the 2013 season. This is 5 400 ha or 1,1% more than the area planted to wheat in 2012. The main producing areas are within the Western Cape with 285 000 ha (55%), followed by the Free State with 125 000 ha (24%) and the Northern Cape with 43 000 ha (8%).

Lately, rains were favourable for wheat production in the Western Cape, as well as parts of the interior. The current wheat price is also higher than at the same time last year, and could encourage producers to expand production. However, despite the rains, it seems that producers in the interior are going to reduce their wheat plantings.

The expected area planted to **malting barley** is 78 700 ha, which is 6 240 ha or 7,3% less than the 84 940 ha of the previous year. The expected area planted to **canola** is 55 000 ha, which is 10 900 ha or 24,7% more than the 44 100 ha planted in 2012. On record, this is the largest area planted to canola.

Please note that the preliminary area estimate of winter crops for 2013 will be released on 25 July 2013.

Information is available on the internet at [http://www.daff.gov.za/links/crop estimates](http://www.daff.gov.za/links/crop_estimates) or <http://www.sagis.org.za>, as from **15:30 on the date of the relevant meeting of the Crop Estimates Committee.**

Wintergewasse – 2013

Die voorneme van boere om te plant is gebaseer op insette soos teen die middel van April 2013, ontvang van:

- Departement van Landbou, Bosbou en Visserye: Steekproef van produsente; en
- Provinsiale Departemente van Landbou: PDL Verteenwoordigers.

Die syfers vir koring verteenwoordig die totale aantal hektare wat werklik beplant gaan word vir graan, uitgesluit alle hektare wat beplant gaan word vir groenvoer en weiding.

Vroeë aanduidings is dat produsente van voorneme is om 516 600 ha **koring** te plant vir die 2013-produksie-seisoen. Dit is 5 400 ha of 1,1% meer koring as in 2012. Die grootste produserende gebiede is in die Wes-Kaap, met 285 000 ha (55%), gevolg deur die Vrystaat met 125 000 ha (24%) en die Noord-Kaap met 43 000 ha (8%).

Die afgelope tyd se reën was gunstig vir koringproduksie in die Wes-Kaap, asook dele van die binneland. Die huidige koringprys is ook hoër as dieselfde tyd verlede jaar en kan produsente aanmoedig om hul produksie uit te brei. Nietemin, ten spyte van die reën en beter pryse, blyk dit asof produsente in die binneland hul koringaanplantings gaan afskaal.

Die verwagte aanplantings van **moutgars** is 78 700 ha – 6 240 ha of 7,3% minder as die 84 940 ha van die vorige jaar. Die verwagte aanplantings van **kanola** is 55 000 ha, wat 10 900 ha of 24,7% meer is as die 44 100 ha wat aangeplant was in 2012. Volgens rekords, is dit die grootste oppervlakte beplant met kanola.

Neem asseblief kennis dat die voorlopige oppervlakeskatting vir wintergewasse vir 2013 op 25 Julie 2013 vrygestel sal word.

Inligting is beskikbaar op die internet by [http://www.daff.gov.za/links/crop estimates](http://www.daff.gov.za/links/crop_estimates) of by <http://www.sagis.org.za>, vanaf **15:30 op die dag van die toepaslike vergadering van die Oesskattingstokomitee.**
