## Foreword

The Department of Agriculture, Land Reform and Rural Development (DALRRD) is pleased to present the second edition of the Wines and Wineries of South Africa guide - a unique visual compilation of information on South African wineries and distillers and the products they produce.

Agro-Industries provide a means of converting raw agricultural materials into value-added products which generate additional income and create employment, while contributing to economic development. The South African wine industry has shown tremendous growth, with exports reaching 411.4 million litres in 2021. Currently some 3 million people are employed both directly and indirectly in the industry. South Africa is the

8th largest wine producing country in the world and third largest in the southern hemisphere. The country produces roughly 1133 million litres of wine per year, or approximately 4.1% of worldwide production.

The South African agricultural and agro-processing supply chains fulfill a wide range of functions vital to the well-being of our people and the economy, while sustainable and expanding business provides the country with valuable foreign exchange and jobs. Accurate information on our wineries and wines is thus vital for South African producers, exporters and the international markets they serve.

The services delivered by the Department are, among other measures, based on the Wine Online export certification system that ensures safe liquor products which adhere to international best practices and the Liquor Products Act. This is indicative of the pivotal role of the agricultural sector together with government and the Wine and Spirit Board in providing an efficient supply chain from the winery to the consumer. The ever growing importance of sustainable and ethically produced wines is key to the future and growth of the wine industry. DALRRD aims to contribute to the economy by sustaining and improving on global agricultural and food supply chains, while keeping on the cutting edge of technology with respect to food safety as a country.

This guide serves as a window to what South Africa can offer as a truly credible international role player who provides high quality wines globally at competitive prices. For importers and consumers around the world, South Africa's quality control systems, farm management practices, safety audits, quality inspections, packaging and cold-chain management services instill confidence in its products. As we continue to explore new markets to diversify and increase our exports, our foreign offices worldwide will use this publication to market our wineries and products.

I wish to thank every participant who contributed to the development of this guide and express the hope that it will further contribute to building trade networks for the benefit of all the people of our country.

**Ms A.T. Didiza (MP)**

Minister: Department of Agriculture, Land Reform and Rural Development

# IT NOT ONLY TASTES GOOD

South African wines are lauded globally for their outstanding quality and distinctive character. Remarkably, they not only taste good, but make a significant contribution to the economy and provide thousands of jobs. As a world leader in ethical and environmental sustainability, the social development supported by the wine industry is as impressive as the wines it produces.

## Message from Wines of South Africa

The South African wine industry prides itself in producing wine, not only of exceptional quality, but rich with variety capturing the diversity of the passionate people and spectacular places that came together to create them.

As an industry, we are committed to ensuring sustainability, both within our vineyard and cellars as well as when it comes to our people. With industry initiatives such as the Integrated Production of Wine (IPW) to which 94% of our producers subscribe, or the WWF Conservation Champions programme, we aim to ensure that we don't just make wine better, but that we make better wine.

It does however go to say that wine cannot be made at all without the help of people. Loyal and hardworking farmworkers who ensure that the grapes are handled with love, tend our vineyards and toil our lands, need to be nurtured and as an industry it is one of our focus pillars to upskill, educate and uplift them. Through the Wine Industry Ethical Trade Association (WIETA) we aim to ensure that workers' rights are adhered to and that fair labour practices are followed on all of our farms, thus ensuring the wellbeing of our people.

Despite the general notion that South Africa is considered to be a 'New World' wine producer, our history in fact dates back over 360 years and with all these years of experience, coupled with agricultural soils that date back some 500 million years, it is no surprise that our wines reflect this in its quality.

The severe impact that the Covid-pandemic had on the South African wine industry has seen our producers reposition themselves and reevaluate how they do business. Government bans on the local sales of alcohol had a devastating impact on many of our producers, however the industry has yet again showed its resilience to come back even stronger than before. A renewed sense of excitement is evident and can be felt from Darling to the Klein Karoo and as we ready ourselves to once again showcase our award-winning wines on the stages of CapeWine and ProWein, we are positive that this renewed focus will stand us in good stead.

**Siobhan Thompson**

CEO - Wines of South Africa (WoSA)

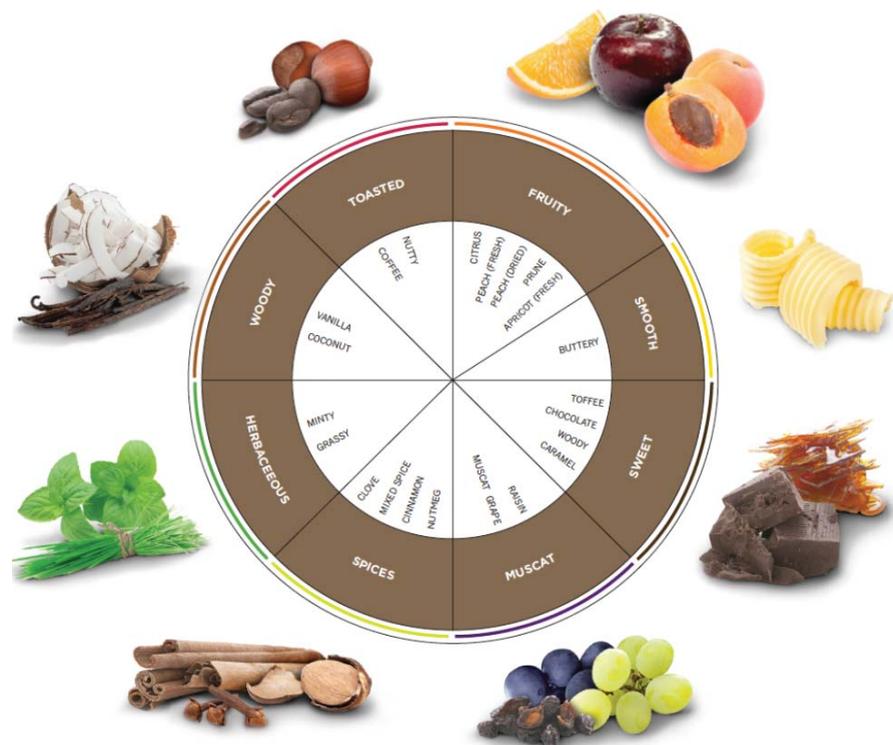

## About South African Brandy

**SA  
BRANDY  
FOUNDATION**  
SHARE THE SPIRIT

The word brandy (brandywine) is derived from the Dutch word “brandewijn,” meaning burnt or distilled wine. The Dutch used distillation as a method of preserving wine aboard their ships. Indeed, a tot of brandy was offered to the first man on board to sight land, leading to calls of “Land Ahoy” many days before the

vessels actually docked. The first brandy in South Africa was distilled aboard the Dutch ship de Pijl, anchored in Table Bay harbour in 1672. The assistant cook succeeded in transforming two leaguers (1164 litres) of Cape wine into “three ankers” (126 litres) of delicious brandy.

The Brandy Aroma Wheel

## Word from the Publisher

Launching the inaugural edition of this publication at ProWein 2020 turned out to be a non-event as we had to rush back to South Africa to avoid being locked down in Europe. We did however, during the course of that year, manage to supply the domestic Tourism Offices with copies for distribution to wineries and visitors in their areas.

Uncertainty continued into 2021 and an update to this guide was eventually abandoned due to the lack of domestic and international events. Not an ideal start for any publication and the number of publications that failed and closed down over this period are testament to those difficult times. However, this Covid-inflicted pause in activities offered us the opportunity to rebrand and repurpose the guide to better support the wine industry.

Wine farms offer a wide variety of facilities and experiences, which go beyond wine sales. Apart from normal contact details we have added 28 facility description categories, which will allow the domestic and international wine tourist the opportunity to better plan when choosing which areas and wine farms to visit. We have also switched from US \$ price categories to ZAR to avoid unnecessary conversion calculations and errors which may result due to currency exchange fluctuations.

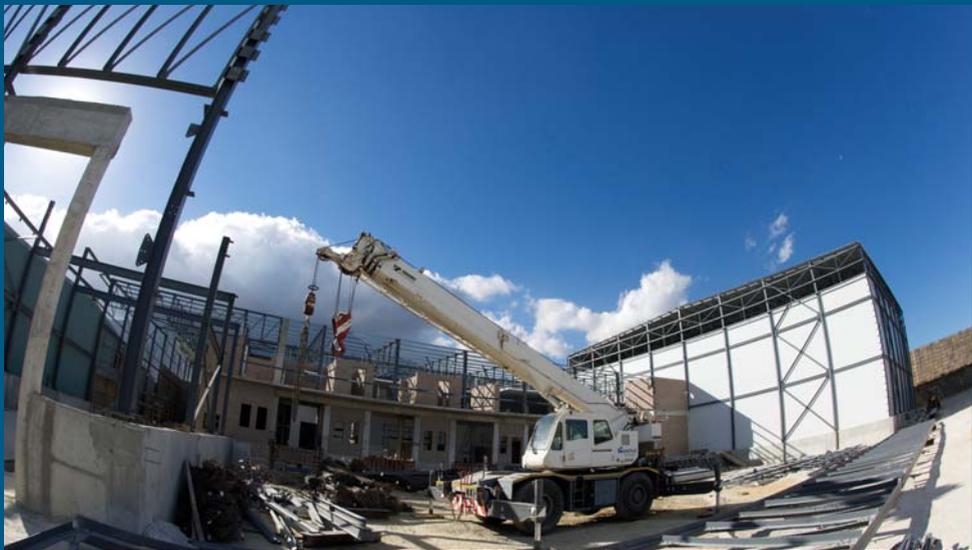

We are living in an age where the mobile phone has become the most common device for information searches and quick decision making. Consequently, in support of this publication, a mobile app is on the horizon which will allow the public to better plan wine farm visits and create a platform for wine farms on which to announce new products, promote facilities, specials and events.

I wish to thank the Department of Agriculture, the Department of Trade and Industry, Wines of South Africa (WoSA) and VinPro's Wine Tourism Desk for their support in ensuring that this guide is widely distributed.

*Individually we can achieve much, collectively we can achieve more.*

# PLANTING THE SEEDS TO DEVELOP AGRO-INDUSTRIES

The Industrial Development Corporation's Agro-Industries Strategic Business Unit (SBU) supports a wide range of economically viable activities in the horticulture, food and beverage, animal protein (meat, dairy and aquaculture) and forestry sectors. Investing in this industry is critical to the economic direction of the country's development plans. It is for this reason we encourage on-going economic growth, job creation and reducing poverty among those who deal with food security.

Our strategic focus is to facilitate competitive import replacement in South Africa and the rest of the African continent, capitalize on our niche and high value crops, support job-rich sub-sectors, rural development and inclusive development models, thereby promoting transformation and inclusivity in this sector. Currently the SBU has over R5 billion of exposure and commitments in this sector and plans to increase its role in this highly important value chain. We are taking the lead in developing the Agro-Industry to reach its full potential by providing on-site job opportunities and turning raw products into consumable goods in the agro processing sector. We also look at financing projects with backward integration, adopting a value chain approach.

The IDC partners with new or existing companies within the Agro-Industries sector that plan to create new or expand their industrial capacity to create sustainable jobs and viable businesses. We also consider supporting BBBEE acquisitions for expansionary purposes in this sector and can consider financing in the rest of the continent as well.

Agro-Industries are often based in rural areas, and therefore we remain committed to developing the agriculture value chain. An increased agricultural output will not only result in the creation of additional rural agro-processing businesses but will also boost the country's food security and economic growth. Promoting BEE and broad based participation in turn supports transformation and inclusivity in this sector.

If you require funding, apply to the IDC by submitting a complete business plan. A business plan guide can be found on the IDC website.

350 wine grape producers

25 000 people\*

Are estimated to shut down or are at risk of losing their jobs from 2020 to 2023.

\* Wine only

### STOCK

**645 m litres** wine stock (estimated end 2021)

**74 m litres** uncontracted (estimated end 2021)

Pressure on price, cellar capacity and taking in the 2022 wine grape crop.

# Red Dawn

*Extracting the power of nature*

**Red Dawn** Natural Tannins emerged onto the local landscape a few years ago as a natural wine preservative and alternative to Sulphur. The journey has been fruitful and challenging yet garnished many fans and advocates along the way. Well known industry names like Loftie Ellis, Wim Truter, Wendy Jonker and even the Western Cape's premier Alan Winde are firm favourites.

Founded in 2011, **Red Dawn** IP was ahead of its time. The health and wellness revolution was in full force but obscured within the wine industry. Fast forward to mid-2021- a post-pandemic awakening- and the world is screaming and demanding everything to be healthier and better for the planet – including their tippie of choice.

Enter: **Red Dawn** Tannin.

Harnessing the power of South Africa's very own Honeybush plant, **Red Dawn** developed tannins that can be used as an alternative to Sulphur. It offers antioxidant and antimicrobial protection for wines and allows for better colour extraction. It masks astringency and reduces the reductive wine character. The tannins add softness, improves mouthfeel and gives an aged quality to young wines.

Since last year, Frank Meaker from Org de Rac has been experimenting with Red Dawn's Genesis tannin. "More and more consumers demand 'free-from' foods," says Meaker. "The trend has been steadily rising over the past decade, following a global call for more natural ingredients. There is a definite focus on natural preservation and reduced sulphur wines both globally and locally".

**Red Dawn's** fully dissolvable vinification tannins offer a plethora of benefits. Not only do they

improve and enhance body, structure, colour, freshness and fruit character – but their most distinctive function is the ability to be used as a Sulphur alternative allowing for natural preservation or used in synergy with Sulphur to reap similar benefits.

Honeybush contains a unique blend of micronutrients. These polyphenolic compounds are extremely rich in anti-oxidants. These powerful oxygen scavengers are harnessed through a specialized and unique extraction process specifically developed by Afriplex, a fully cGMP pharmaceutical facility, for the production of **Red Dawn** tannins.

## THE "HUMBLE" HONEYBUSH PLANT

- Part of the fynbos family
- Highly acclaimed health benefits
- Natural source of antioxidants
- Antifungal & antibacterial properties
- Awarded Geographical Indicator (GI) - locally sourced
- Fledgling industry, expansive farming opportunities in communities across the Western Cape

In late 2019, **Red Dawn** announced a partnership with Enartis where this innovative and well-known oenology specialist became its exclusive distributor. This proudly South African innovation is set to have a major impact on how winemakers go about managing and controlling sulphur levels in wine.

[www.reddawnip.co.za](http://www.reddawnip.co.za)

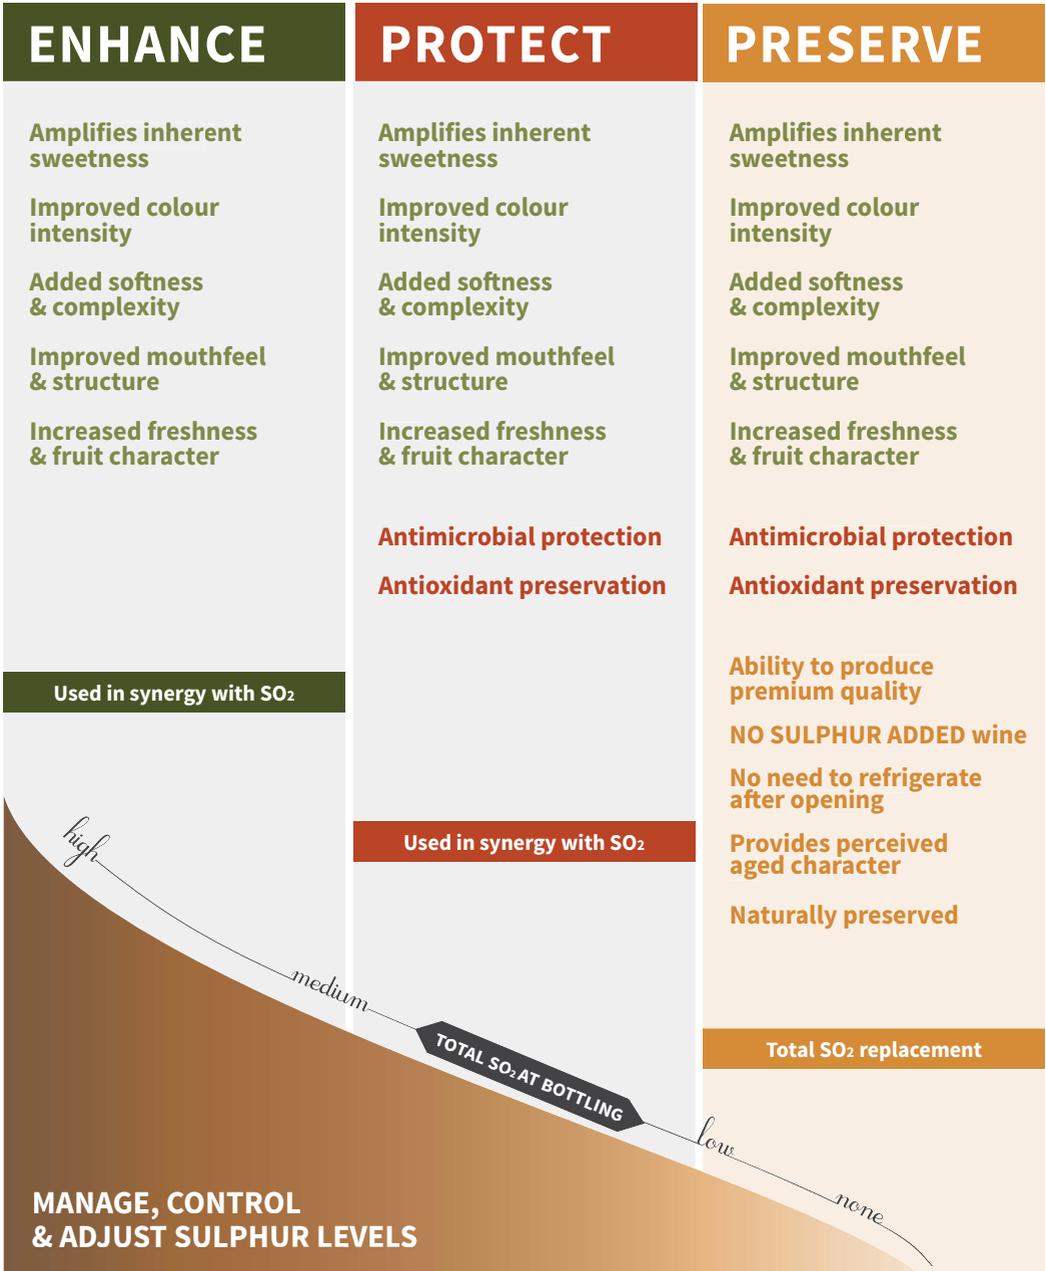

- Concern for our planet and caring for our health dominate global consumer trends
- Conscious Consumerism is rapidly expanding along with the demand for a greener planet
- Healthier food and beverage options are ever increasing
- **This is the opportunity for a new and healthier wine trend**

Red Dawn tannins are  
**UNIQUELY & PROUDLY  
SOUTH AFRICAN**

and sourced from our very own Western Cape Province and floral kingdom.

# A NATURAL WINE PRESERVATIVE & ALTERNATIVE TO SULPHUR

## About our Wine Routes

South Africa boasts a well-established network of twenty-three diverse and accessible wine routes across three provinces: the Western Cape, Northern Cape and Kwa-Zulu Natal. Our wine routes are organised according to terroir based on their Wine of Origin designation.

South Africa boasts some of the oldest viticultural soils in the world, traceable back to the first super continent some 1 000 million years ago. The constant interplay between these ancient soils, soaring mountains, valley slopes and coastal breezes result in a natural environment exceptional in its biodiversity.

Our producers pledge to farm sustainably; to be a custodian of the land and preserve it for future generations; to nurture a culture of respect among the people who work on the farms and in the cellars; to promote an environment of dignity, equality and upliftment for all; to protect the unique and valuable biodiversity of our winelands and to safeguard the rich heritage of South Africa's winelands.

Award-winning wines, a variety of events and festivals, a wide range of activities from hiking to mountain biking and whale watching, world-class accommodation, cutting edge restaurants, designer golf courses and stunning scenery are all part of the enticing mix.

Travel to the place of origin to learn more about South African wine, to uncover regional secrets and simply to slow down and enjoy life's special moments.

Explore South Africa's wine routes at [www.visitwinelands.co.za](http://www.visitwinelands.co.za)

# WESTERN CAPE | Cape Town

## 1 Constantia Wine Route

The Constantia Wine Route offers a unique blend of centuries-old homesteads and stylish new boutique wineries in spectacular mountain countryside just 15 minutes from Cape Town's city centre. Here you can sample a wide range of premium wines, take a

stroll through beautiful greenbelts, enjoy a sensational taste experience at one of the many restaurants, sip champagne on the lawns of the wineries or in the boutique hotels, and view fine art made by local artists.

## 2 Durbanville Wine Route

Break away to drink, dine and discover one of the Cape's most exciting destinations – Cape Town's northern vineyard at Durbanville, just 20 minutes from the CBD. Durbanville Wine Valley is home to 15 of South Africa's most well-known wineries, which have a long history of producing champion wines thanks to the

region's cool climate, and diversity of soils and slopes. Warm hospitality, rich flavours, exceptional wines and engaging experiences are interwoven into the core of what the Durbanville Wine Valley is all about. Durbanville is generally known for Sauvignon Blanc excellence.

@DurbanvilleWine

@durbanvillewine

## Cape Winelands

### 3 Bredekloof Wine Valley

The lesser-explored Bredekloof, a valley of slow-ripening vines, is home to farming families with a long tradition, some reaching back over three centuries. This wine hamlet, situated just over an hour's drive from Cape Town, offers expansive and dramatic mountain

views, as well as a range of activities that cater to all tastes, whether it's a thirst for the outdoors, or for something a bit more literal in the form of wine, craft gin or craft beer.

[t @BreedekloofWine](#)

[@ @breedekloof\\_wine\\_valley](#)

### 4 Franschhoek Wine Valley

Breathtaking scenery, world-class cuisine, fine wines and a village atmosphere: these are the hallmarks of the beautiful Franschhoek Valley, settled more than 300 years ago by the French Huguenots. Experience the Food and Wine Route, the Artisan Food Route,

the Rond en Bont cultural route or the Cap Classique Route; treat yourself to a special Mystery Weekend; or go to one of the festivals covering food and wine, art, literature and music.

[www.franschhoek.org.za](http://www.franschhoek.org.za)

[f @Franschhoekwinevalley](#)

[t @Franschhoek\\_SA](#)

[@ @Franschhoek\\_SA](#)

## 5 Paarl Wine Route

Proudly positioned, the famous Paarl Rock greets you when visiting this valley. Paarl Wine Route is one of the oldest in the country, and several of South Africa's historic cellars are found here. The tranquil wine region

is renowned for its rich, full-bodied, spicy reds (Shiraz is a speciality) and crisp whites. The town of Paarl, which dates back to 1657, offers nature, history, culture and food – explore it by foot, bicycle, horseback or car.

[www.paarlonline.com](http://www.paarlonline.com)

[f @visitpaarl](#) [t @visitpaarl](#) [i @visitpaarl](#)

## 6 Robertson Wine Valley

Satisfy your wanderlust with a mere 2-hour scenic drive from Cape Town to explore the country life on Route 62. Be captivated by the producers' rich history that led to this valley's authenticity and quality. Celebrate Chardonnay, Cabernet and MCC from this diverse terroir

region. We are united in our passion to create the most memorable wine and food tourism experiences hosted by our unique, country-charm hospitality. Discover the stories behind the bottle and come taste the lifestyle.

[www.robertsonwinevalley.com](http://www.robertsonwinevalley.com)

[f @robertsonwinev](#) [t @robertsonwinev](#) [i @robertsonwinev](#)

## 7 Stellenbosch Wine Routes

In 1971, Stellenbosch became the first wine region in South Africa to establish a wine route as an organised network of wineries for visitors. Today the town – with its compelling mix of world class wine and food offerings balanced with history, culture, and spectacular natural

beauty – provides a coordinated network of more than 100 wineries, each offering a unique cellar-door experience for the wine lover and visitor. The five sub-routes each has its own wine styles, climates and geographic location.

[www.wineroute.co.za](http://www.wineroute.co.za)

[f @StellWineRoute](#) [t @StellWineRoute](#) [@ @stellenboschwine](#)

## 8 Tulbagh Wine Route

A scenic 90-minute drive from Cape Town, the rural village of Tulbagh nestles in a serene valley surrounded by magnificent mountains. The Tulbagh Wine Route is dotted with graceful old estates that have been home to generations of the same families, interspersed with

new vineyards and state-of-the-art cellars belonging to more recent micro-producers and boutique wineries. One of the attractions of Tulbagh is Church Street with its 32 provincial monuments that transport visitors back in time.

[f @TulbaghWineandTourism](#) [t @TulbaghTourism](#) [@ @tulbagh](#)

## 9 Wellington Wine Route

If you seek the road less travelled then there's no wrong turn when visiting the picturesque town of Wellington, declared a 'Top Wine Area' in the 2016 South African Terroir Awards. Surrounded by wine estates, fruit orchards, buchu plantations and olive groves, it's also

home to South Africa's first indigenous distillery. Here's where visitors meandering off the beaten track can discover artisanal produce and scenic routes, and even game reserves set among the fynbos and indigenous Renosterveld.

[i @visitwellington](https://www.instagram.com/visitwellington)

## 10 Worcester Wine & Olive Route

The Worcester Wine & Olive Route, about 150 kilometres from Cape Town, is home to 12 wine cellars and two olive estates, offering an unforgettable experience to all food and wine lovers, from novices to connoisseurs. This region, known for its value-for-

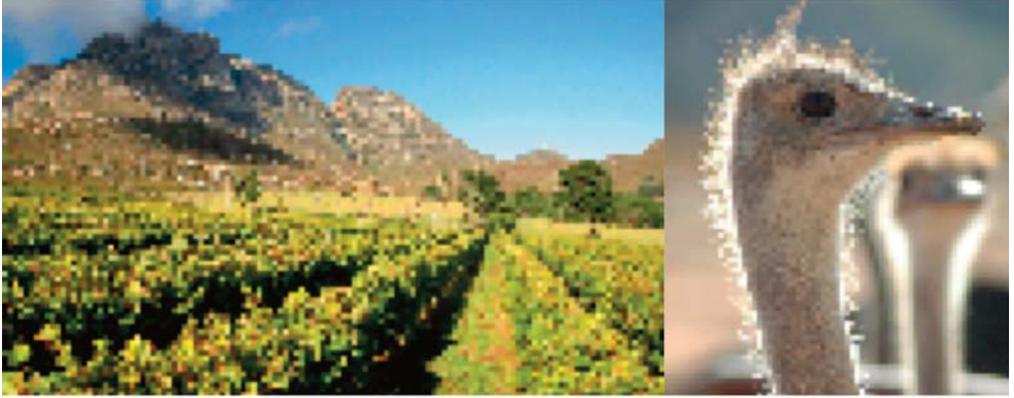

money products, also boasts plenty of bistros and restaurants, plus a range of accommodation options for those who want to make it a relaxing getaway. A highlight on the annual calendar is the Nuy Valley Feast taking place in May.

## Garden Route & Klein Karoo

### 11 Klein Karoo Wine Route

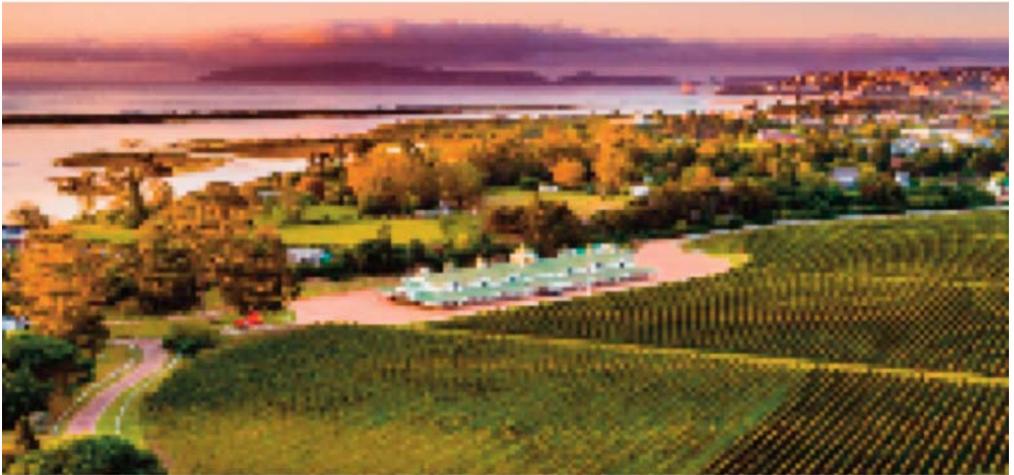

Spread out across the Klein Karoo with its uniquely South African cuisine, warm welcome and unspoilt landscapes, this diverse wine route stretches along the R62 from Montagu westwards through the towns of Barrydale, Ladismith, Calitzdorp and Oudtshoorn, to

De Rust and Herold in the east. Various microclimates enable Klein Karoo winemakers to produce a wide variety of quality wines that include crisp whites and appealing reds, potstill brandies, and the ever-popular Muscadel and Cape Port.

[www.kleinkaroorwines.co.za](http://www.kleinkaroorwines.co.za)

[f @KleinKarooWines](#) [t @KleinKarooWines](#) [i @kleinkaroorwineroute](#)

### 12 Plettenberg Bay Winelands

South Africa's smallest wine region, the Plett Winelands' sixteen farms are producing a variety of cultivars, most notably Sauvignon Blanc, Chardonnay and Pinot Noir. Home to SA's top Cap Classique, the area has grown into a premier bubbly experience with other award-winning Cap Classique varieties. Experience the eclectic mix of boutique tasting rooms, restaurants, wine cellars and

viticulture tours. With six internationally recognized Blue Flag beaches, the iconic Robberg Peninsula, outdoor adventure activities and popular hiking and cycling trails, the area is one of South Africa's favourite playgrounds. Enjoy outdoor, year-round fizz when visiting this world-class Garden Route destination.

[f @PlettTourism](#) [t @Plett\\_Tourism](#) [i @pletttourism](#)

## Overberg

### 13 Bot River Wine Route

In the rolling hills of the Bot River area, down-to-earth, sociable farmers make wines for lovers of the road less travelled. Here you can taste wines made from the oldest vines in the region, as well as more recent varieties from new plantings. From historic

[www.botriverwines.com](http://www.botriverwines.com)

and traditional wineries to the most modern state-of-the-art cellars, the common denominators are a warm welcome, handcrafted wines, a commitment to biodiversity and the desire to share hours of sociable sipping.

### 14 Elgin Valley Wine Route

The vineyards of the Elgin Valley Wine Route benefit from high altitudes and cold winters with abundant rainfall, and southeasterly sea breezes in summer. These elements ensure slow ripening, resulting in wines with purity of fruit, complexity and elegance.

[www.elginwine.co.za](http://www.elginwine.co.za)

The route encompasses 15 wineries, while festivals include Elgin Cool Wine & Country Food and the Elgin Chardonnay Colloquium held annually in October. An exciting development is the Elgin Railway Market with a wine bar, crafts and food stalls.

## 15 Agulhas Wine Triangle

The Agulhas Wine Triangle is home to the southern-most vineyards on the African continent. It's a raw and honest landscape comprising ancient soils, windswept plains and protected wetlands. The farmers see themselves as custodians of nature; creating terroir-driven wine, aided in their task by the maritime climate that

results in lower yields and gradual ripening of the grapes. The rich biodiversity of the area, abundant birdlife and Great Wine Sharks roaming the surrounding oceans make this an area well-suited to explorers, producing elegant wines with depth and concentrated flavour.

## 16 Hemel-en-Aarde Wine Route

Bordering Walker Bay – a breeding ground for Southern Right whales on their annual winter migration – is a 20-kilometre stretch of vineyards known for their unique terroir and maritime character, which derive maximum benefit from the high elevation and cool sea

breezes. The earth here has, over millions of years, shifted and moved, creating the wide variations that make up the area's three distinct appellations. Each winery produces small volumes of premium-quality wines in sustainably managed vineyards.

### 17 Stanford Wine Route

The quaint village of Stanford in the Cape Overberg, two hours from Cape Town, is surrounded by ten wineries, ranging from large well-known farms to charming micro establishments. Here, you can taste the unique wines of the cool-climate terroir, sample

wholesome, delectable country cuisine, relax into laidback village life and soak up the tranquil landscape, book into a wide range of accommodation from five-star to home-from-home, and make lifelong wine friends.

## West Coast

### 18 Darling Wine Route

Darling, 'the flower of the West Coast', is an hour's drive from Cape Town. The town and surrounds are the home of vineyard plantings influenced by the nautical conditions of the nearby Atlantic Ocean. Mainly dryland, the plantings yield fruit of huge intensity

and flavour, resulting in wonderful wines. Darling is a member of the Biodiversity and Wine Initiative, which aims to minimise the loss of natural habitats and contribute to sustainable wine production through better land-management practices.

@Hello Darling @HelloDarlingZA

## 19 Santam Swartland Wine & Olive Route

The raw and rugged Swartland – an area of extreme diversity – boasts wide-open horizons. Here, bush vines and trellised vines stand alongside wheat fields and olive groves in an area with many microclimates and soils. Vineyards stretch along the banks of the Berg River and

clamber up the rolling hills so typical of this area, and backroad wineries echo the terroir, with communities pursuing individual expression through wine, food, word and art.

## 20 West Coast Wine Route

The varied West Coast Wine Route covers a wide range of locations, from tucked-away family-run farms to well-known mega-wineries. The route begins in the Piekenierskloof pass near Citrusdal in the south, and stretches north along the fertile Olifants River valley

with its ideal growing conditions for distinctive wines, to Doring Bay to Lamberts Bay on the West Coast. The beauty of the region, popular with adventurous and active travellers, is enhanced by its down-to-earth and genuine people.

# NORTHERN CAPE

## 21 Orange River Wine Route

The Orange River Wine Route in the arid Northern Cape stretches over more than 350 kilometres. The life giving waters of the Orange River make this route a green oasis in the middle of the Kalahari Desert. Their mainly white wines have a wide appeal across tastes

and pockets, and cover the gamut from dry to naturally sweet, sparkling and dessert. This region is known for its wide-open spaces, breathtaking sunsets and stary nights.

[f @orangeriver.cellars](#) [t @OrangeRiverCellars](#) [i @OrangeRiverWine](#)

# KWA-ZULU NATAL

## 22 Midlands Meander Route

The KwaZulu-Natal Midlands, stretching from beyond the Mooi River to the foothills of the Drakensberg, are guaranteed to take your breath away with their beauty. The popular Midlands Meander route unwinds through rolling hills and villages, and the first sight

of vines is always surprising. Three wineries offer visitor experiences on this informal wine route which takes an hour and a half to drive along the Midlands Meander, with the final stop in the Central Drakensberg.
