Foreword

The Department of Agriculture, Land Reform and Rural Development (DALRRD) is pleased to present the fourth edition of the Wines and Wineries of South Africa guide - a unique visual compilation of information on South African wineries and distillers and the products they produce. The excellence of South African wines have been a good ambassador for proudly South African produce all over the world.

Agro-Industries provide a means of converting raw agricultural materials into value-added products which generate additional income and create employment, while contributing to economic development. The South African wine industry has shown tremendous growth, with exports reaching 411.4 million litres in 2021. South

Africa is the 8th largest wine producing country in the world and third largest in the southern hemisphere. South Africa produces roughly 1133 million litres of wine per year, or approximately 4.1% of worldwide production.

The South African agricultural and agro-processing supply chains fulfill a wide range of functions vital to the well-being of our people and the economy, while sustainable and expanding business provides the country with valuable foreign exchange and jobs. Accurate information on our wineries and wines is thus essential to South African producers, exporters and the international markets alike.

The services delivered by the Department are, among other measures, based on the Wine Online export certification system that ensures safe liquor products which adhere to international best practices and the Liquor Products Act. This is indicative of the pivotal role of the agricultural sector together with government and the Wine and Spirit Board in providing an efficient supply chain from the winery to the consumer. The ever growing importance of sustainable and ethically produced wines is key to the future and growth of the wine industry.

This guide serves as a window to what South Africa can offer as a truly credible international role player who provides high quality wines globally at competitive value propositions. For importers and consumers around the world, South Africa's quality control systems, farm management practices, safety audits, quality inspections, packaging and cold-chain management services instill confidence in its wines. South African foreign offices worldwide are our ambassadors and need comprehensive publications to market our wineries and products.

I wish to thank participants of this wine guide initiative and its contribution to building marketing networks for the wine industry.

Word from the Publisher

With CapeWine 2022 behind us we can again focus on our mandate - supported by the Department of Agriculture (DALRRD) and the Department of Trade, Industry and Competition (the dtic) - to promote the South African agro-industries, and in this case the wine industry. This guide promotes the South African wine industry as an encompassing brand while also showcasing the individual wineries, distilleries and brands represented within the industry.

Wine tourism is once again actively promoted in this issue, highlighting facilities on offer to the domestic and international visitor. The available Vinpro research data

shows that wine tourism represents on average 14,7% of the total turnover of the larger wine cellars and 41,3% of boutique wine cellars (total turnover of less than R10m p/a). We trust that this publication will contribute to overall sales and the industry's efforts to make South Africa a world-class wine destination.

To succeed, we need the wine industry's understanding and support for what is commonly known as "**coopetition**", i.e. "*collaboration between business competitors, with the aim of mutually beneficial results*". To this end, this guide will again be distributed by the dtic at the following international major food and beverage events:

Gulfood, Dubai, UAE: over 93,000 trade visitors

Foodex, Tokyo, Japan: over 33,000 trade visitors

APAS Supermarket Fair, Sao Paulo, Brazil: over 58,000 trade visitors

Sial, Shanghai, China: over 120,000 trade visitors

This distribution footprint cannot be matched by any South African marketing publication, and the subsidised participation fee is a fraction of standard industry rates. Despite this, political grandstanding within the industry prevents this publication from reaching its full potential, ultimately affecting those we support in marketing their products and facilities. This reflects a significant lack of marketing expertise and vision, especially at a time when most cellars are struggling to make a profit.

I wish to thank the DALRRD and the dtic for their support in ensuring that this guide is widely distributed.

Individually we can achieve much, collectively we can achieve more.

About our Wine Routes

South Africa boasts a well-established network of twenty-three diverse and accessible wine routes across three provinces: the Western Cape, Northern Cape and Kwa-Zulu Natal. Our wine routes are organised according to terroir based on their Wine of Origin designation.

South Africa boasts some of the oldest viticultural soils in the world, traceable back to the first super continent some 1 000 million years ago. The constant interplay between these ancient soils, soaring mountains, valley slopes and coastal breezes result in a natural environment exceptional in its biodiversity.

Our producers pledge to farm sustainably; to be a custodian of the land and preserve it for future generations; to nurture a culture of respect among the people who work on the farms and in the cellars; to promote an environment of dignity, equality and upliftment for all; to protect the unique and valuable biodiversity of our winelands and to safeguard the rich heritage of South Africa's winelands.

Award-winning wines, a variety of events and festivals, a wide range of activities from hiking to mountain biking and whale watching, world-class accommodation, cutting edge restaurants, designer golf courses and stunning scenery are all part of the enticing mix.

Travel to the place of origin to learn more about South African wine, to uncover regional secrets and simply to slow down and enjoy life's special moments.

14 Elgin Valley Wine Route

The vineyards of the Elgin Valley Wine Route benefit from high altitudes and cold winters with abundant rainfall, and southeasterly sea breezes in summer. These elements ensure slow ripening, resulting in wines with purity of fruit, complexity and elegance.

The route encompasses 15 wineries, while festivals include Elgin Cool Wine & Country Food and the Elgin Chardonnay Colloquium held annually in October. An exciting development is the Elgin Railway Market with a wine bar, crafts and food stalls.

15 Agulhas Wine Triangle

The Agulhas Wine Triangle is home to the southern-most vineyards on the African continent. It's a raw and honest landscape comprising ancient soils, windswept plains and protected wetlands. The farmers see themselves as custodians of nature; creating terroir-driven wine, aided in their task by the maritime climate that

results in lower yields and gradual ripening of the grapes. The rich biodiversity of the area, abundant birdlife and Great Wine Sharks roaming the surrounding oceans make this an area well-suited to explorers, producing elegant wines with depth and concentrated flavour.

16 Hemel-en-Aarde Wine Route

Bordering Walker Bay – a breeding ground for Southern Right whales on their annual winter migration – is a 20-kilometre stretch of vineyards known for their unique terroir and maritime character, which derive maximum benefit from the high elevation and cool sea

breezes. The earth here has, over millions of years, shifted and moved, creating the wide variations that make up the area's three distinct appellations. Each winery produces small volumes of premium-quality wines in sustainably managed vineyards.

18 Darling Wine Route

Darling, 'the flower of the West Coast', is an hour's drive from Cape Town. The town and surrounds are the home of vineyard plantings influenced by the nautical conditions of the nearby Atlantic Ocean. Mainly dryland, the plantings yield fruit of huge intensity

and flavour, resulting in wonderful wines. Darling is a member of the Biodiversity and Wine Initiative, which aims to minimise the loss of natural habitats and contribute to sustainable wine production through better land-management practices.

The raw and rugged Swartland – an area of extreme diversity – boasts wide-open horizons. Here, bush vines and trellised vines stand alongside wheat fields and olive groves in an area with many microclimates and soils. Vineyards stretch along the banks of the Berg River and

clamber up the rolling hills so typical of this area, and backroad wineries echo the terroir, with communities pursuing individual expression through wine, food, word and art.

20 West Coast Wine Route

The varied West Coast Wine Route covers a wide range of locations, from tucked-away family-run farms to well-known mega-wineries. The route begins in the Piekenierskloof pass near Citrusdal in the south, and stretches north along the fertile Olifants River valley

with its ideal growing conditions for distinctive wines, to Doring Bay to Lamberts Bay on the West Coast. The beauty of the region, popular with adventurous and active travellers, is enhanced by its down-to-earth and genuine people.

21 Orange River Wine Route

The Orange River Wine Route in the arid Northern Cape stretches over more than 350 kilometres. The life giving waters of the Orange River make this route a green oasis in the middle of the Kalahari Desert. Their mainly white wines have a wide appeal across tastes

and pockets, and cover the gamut from dry to naturally sweet, sparkling and dessert. This region is known for its wide-open spaces, breathtaking sunsets and starry nights.

The KwaZulu-Natal Midlands, stretching from beyond the Mooi River to the foothills of the Drakensberg, are guaranteed to take your breath away with their beauty. The popular Midlands Meander route unwinds through rolling hills and villages, and the first sight

of vines is always surprising. Three wineries offer visitor experiences on this informal wine route which takes an hour and a half to drive along the Midlands Meander, with the final stop in the Central Drakensberg.
