21.2 If at any time during performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the Supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

TERMS OF REFERENCE (TOR) FOR THE APPOINTMENT OF A SERVICE PROVIDER WITH RELEVANT EXPERTISE TO PROVIDE THREE (3) SPECIALISTS IN TERMS OF SECTION 9 OF RESTITUTION OF LAND RIGHTS ACT 22 OF 1994 FOR THE COMMISSION ON RESTITUTION OF LAND RIGHTS (CRLR) FOR A PERIOD OF THREE (3) YEARS.

1. PURPOSE

The appointment of a service provider with relevant expertise to provide three (3) Specialists in terms of Section 9 of the Restitution Land Rights Act 22 of 1994 to oversee and manage strategic projects for the Commission on Restitution of Land Rights (CRLR or “The Commission”) for a period of three (3) years.

2. INTRODUCTION AND BACKGROUND

In the first quarter of 2019, the Commission on Restitution of Land Rights (CRLR) appointed a service provider to assist the Commission on Restitution of Land Rights (CRLR) to re-engineer the organisation in various respects. This project had various streams namely the Backlog Reduction Project, Business Process Improvement, Change Management and People Management. The Re-development of the Organisational Form as well as the re-design of the Financial and Settlement Models to guide settlement approaches.

So far, the Kuyasa Project has delivered various deliverables and products in each of the streams and are also assisting the Commission on Restitution of Land Rights (CRLR) to prepare for the implementation of projects that emerged from the process. In addition, the Auditor-General (AG), in line with the overall thinking of the Kuyasa project, identified the critical need for the Commission to become a stand-alone entity and, amongst others, prepare separate annual financial statements.

One of the key deliverables of Kuyasa is the Business Process Maps (BPM) based on a detailed analysis of the mandate of the CRLR. In line with this BPM and the legislative mandate to “solicit, investigate and recommend for settlement” land claims, post-settlement as a function has clearly been identified out of the mandate and scope of the CRLR. This has been confirmed by the Minister and Director-General who is clear that the function of post-settlement lies outside the domain of the CRLR. However, no business process of governance structures has been put in place to ensure that proper hand-over of the function takes place.

Emerging from the backlog-stream, a more detailed, accurate and comprehensive set of claims- and financial data as well as a reporting prototype was developed. This provides the CRLR with up to date data to monitor the settlement of claims as well as statistics for reporting on claims that has not yet been settled (present and future claims). However, the assessment and cleaning up of the commitment register (past/ claims already settled) was not included in the original Kuyasa project and this has subsequently been put out separately to tender.

3. PROBLEM STATEMENT

The projects mentioned above are ad hoc transitional in nature and require temporary Specialist support over the short to medium term to implement. The Restitution of Land Rights Act 22 of 1994 states that the Chief Land Claims Commissioner (CLCC) may appoint persons or organisations to assist the Commission on an ad hoc basis from time to time for a particular purpose as and when required.

TERMS OF REFERENCE (TOR) FOR THE APPOINTMENT OF A SERVICE PROVIDER WITH RELEVANT EXPERTISE TO PROVIDE THREE (3) SPECIALISTS IN TERMS OF SECTION 9 OF RESTITUTION OF LAND RIGHTS ACT 22 OF 1994 FOR THE COMMISSION ON RESTITUTION OF LAND RIGHTS (CRLR) FOR A PERIOD OF THREE (3) YEARS.

Service providers to bring temporary, ad hoc expertise to the table that may not be available currently or where existing time-constraints simply does not allow for permanent employees to perform said functions.

Additional and supporting resources as allowed by section 9 of the Restitution of Land Rights Act 22 of 1994 is therefore proposed. The Commission is in the process of concluding a comprehensive business re-engineering process. During this process several critical projects were identified that need to be implemented over the short to medium term as an offshoot to this re-configuration process.

This includes the data analysis of, (1) the commitment register, (2) post-settlement pilot projects, (3) the appointment and supervision of Data Managers and Specialists etc. In order to oversee and manage these strategic projects, the CRLR requires the services of a **Programme Manager** to plan, implement and oversee these projects but also other projects as and when identified.

Over the past year, the CRLR significantly improved the quality of data for reporting purposes as well as to monitor the process of settling claims. Services of a **Data Manager** are required in order to fully grasp the complexity of the data and have a strong understanding of databases, data analysis procedures, be tech-savvy and possess troubleshooting skills.

Services of a **Data Analyst** are also required to interpret the data and to turn it into information which can offer ways to improve a business and supporting business decisions. The Data Analyst will be required to gather information from various sources and interpret patterns and trends and to produce management reports.

The CRLR hold various sets of data related to claims lodged pre-1998 as well as “new” claims lodged since 1 July 2014. There are various data sets utilized for the monitoring of claims and statistics kept related to, inter alia, the number of hectares restored, extent of financial compensation paid, number of households and beneficiaries etc.

4. OBJECTIVES

In terms of Section 9 (1) (a) of the Restitution of Land Rights Act (Act 22 of 1994), “The Chief Land Claims Commissioner (CLCC) may from time to time - (a) Appoint one or more persons with particular knowledge or specific expertise relevant to the achievement of the Commission's objects to advise the Commission regarding any matter connected with the performance of its functions”.

Emerging from Kuyasa there are 4 key strategic projects that need to be implemented, namely:

- The management, updating and maintenance of the land claims database and integration with other data that may be relevant,
- The verification, cleaning and updating of the commitment register which will result in various actionable tasks and may also identify the need for further policy development,
- Separate financial statements for the Commission on Restitution of Land Rights (CRLR),

TERMS OF REFERENCE (TOR) FOR THE APPOINTMENT OF A SERVICE PROVIDER WITH RELEVANT EXPERTISE TO PROVIDE THREE (3) SPECIALISTS IN TERMS OF SECTION 9 OF RESTITUTION OF LAND RIGHTS ACT 22 OF 1994 FOR THE COMMISSION ON RESTITUTION OF LAND RIGHTS (CRLR) FOR A PERIOD OF THREE (3) YEARS.

- The proper hand over of functions that falls outside the mandate of the Commission on Restitution of Land Rights (CRLR) that may have been done by the Commission previously e.g. post-settlement.

The abovementioned projects all have a short to medium term duration and the functions may be amalgamated into the Commission on Restitution of Land Rights (CRLR) over the longer term as and when the functions are identified as permanent and the requisite posts created.

The objective of the appointment of Section 9 appointees, is to enable the Commission to effectively and efficiently carry out its main mandate of settling Restitution claims by enhancing the data management, effectively devolving the responsibility of any post-settlement to the Department, to give effect to the Auditor General (AG) findings and to verify and clean up the almost R5 billion commitment register.

The primary outputs would be:

- The effective and efficient management of Restitution data,
- A credible commitment register,
- The effective implementation of Post-Settlement projects by other parties on resituated land and associated reduction in the commitment register,
- Reliable, accurate and comprehensive annual financial statements,
- Proper management and oversight of the projects above.

5. RESOURCES AND COMPETENCY REQUIRED

Three (3) Section 9 appointments are envisaged:

- Programme Manager - Plan, implement and oversee strategic projects for CRLR,
- Data Manager - Analyse data, manage complexity of data and manage databases for the CRLR,
- Data Analyst – Gather information from various sources, interpret patterns and trends for Management reports for the CRLR.
