**TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP
A MUNICIPAL SPATIAL DEVELOPMENT FRAMEWORK (SDF) FOR NONGOMA LOCAL
MUNICIPALITY (KZN 265), ZULULAND DISTRICT MUNICIPALITY (DC 26), THE PROVINCE OF
KWAZULU-NATAL FOR A PERIOD OF SEVENTEEN (17) MONTHS**

1 INTRODUCTION

- 1.1 The Department of Agriculture Land Reform and Rural Development (DALRRD / the Department) seeks to enlist the services of an experienced and suitably qualified, competent, professional service provider to undertake the development of a Spatial Development Framework (SDF) for the Nongoma Local Municipality situated in the Province of KwaZulu-Natal.

2 LEGISLATIVE CONTEXT

- 2.1 With the enactment of the Spatial Planning and Land Use Management Act (SPLUMA) in 2013, a new planning regime was introduced in South Africa. It replaced disparate apartheid era laws with a coherent legislative system designed to spatially transform the country in its democratic era.
- 2.2 Local municipalities have the functions and powers referred to in sections 156 and 229 of the Constitution which include municipal planning, municipal infrastructure and municipal facilities, and municipal fiscal powers and functions but excluding those functions and powers vested in the district municipality in whose area they are located in. Municipal planning includes all spatial planning and development control within their respective municipal boundary.
- 2.3 Section 12(1) of the Spatial Planning and Land Use Management Act requires that the national and provincial sphere of government and each municipality must prepare spatial development framework that:
- a) s12(1)(a) - "interpret and represent the spatial development vision of the responsive sphere of government and competent authority."
 - b) s12(1)(h) "include previously disadvantaged areas, areas under traditional leadership, rural areas, informal settlements, slums and land holdings of state-owned enterprises and government agencies and address their inclusion and integration into spatial, economic, social and environmental objectives of relevant sphere".
 - c) s12(1)(i) – "address historical spatial imbalances in development"

- 2.4 Chapter 4 of the Spatial Planning and Land Use Management (SPLUMA) Act No 16 of 2013 requires National, Provincial and Local Municipalities to prepare Spatial Development Frameworks (SDFs).
- 2.5 The National Development Plan sets the country's strategic direction, Chapter 5 of the NDP focuses on environmental sustainability and resilience through an equitable transition to a low-carbon economy, which will also have implications on the way spatial planning and development in South Africa is approached. Chapter 6 sets out specific targets and goals towards establishing a more inclusive rural economy through integrated rural development and Chapter 8, which focuses on the country's spatial planning system, requires that:
 - 2.5.1 All municipal and provincial SDFs are translated into 'spatial contracts that are binding across national, provincial and local governments;
 - 2.5.2 The current planning system should 'actively support the development of plans that cross municipal and even provincial boundaries', especially to deal with biodiversity protection, climate-change adaptation, tourism and transportation; and
 - 2.5.3 Every municipality should have an 'explicit spatial restructuring strategy' which must include the identification of 'priority precincts for spatial restructuring'.
- 2.6 To give spatial expression to the NDP the Department has prepared the National Spatial Development Framework, KZN COGTA have also prepared the KZN Provincial Spatial Development Framework, which was adopted by the Provincial Government.
- 2.7 Section 20 (1) of SPLUMA requires the Municipal Council of a municipality by notice in the Provincial Gazette to adopt a municipal spatial development framework for its municipality.
- 2.8 Section 20 (2) states that the municipal spatial development framework must be prepared as part of a municipality's integrated development plan in accordance with the provisions of the Municipal Systems Act, 2000 (Act 32 of 2000).
- 2.9 Section 26 (d) of the Local Government: Municipal Systems Act, No. 32 of 2000 (MSA) stipulates that the council's development strategies must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- 2.10 Section 26 (e) of the Local Government: Municipal Systems Act, No. 32 of 2000 (MSA) stipulates that all Municipalities are required to compile Spatial Development Frameworks (SDFs) as a core component of their Integrated Development Plans (IDPs).
- 2.11 The Nongoma Local Municipality currently have an adopted Spatial Development Framework for the period 2019-2023 which was last reviewed during the 2018/2019 financial year. The Municipality therefore requires support for the adoption of new SDF 2024/2028.
- 2.12 The former Department of Rural Development and Land Reform (DRDLR) now the Department of Agriculture Land Reform and Rural Development (DALRRD) developed a Spatial Development Framework guideline document dated 2017 to assist practitioners and the various spheres of government with the process of preparing Spatial Development Frameworks.

3 PROBLEM STATEMENT

- 3.1 Many Municipalities in the past have developed SDFs, either in silos or supported (technically and/or financially) by National or Provincial government with differentiated approaches undertaken to develop the SDF this was further aggravated due to a lack of comprehensive guidelines for the development of SDFs. Some SDF documents have been detailed enough to inform decision making while others only provide a broader framework found to be difficult in effectively facilitating implementation of government programmes.
- 3.2 Various shortcomings have been depicted in most SDF documents. The Department participates in the COGTA IDP assessments which involves the analysis of SDFs on an annual basis which revealed many shortcomings in terms of the requirements set out in SPLUMA and the MSA and are therefore non-compliant with the provisions of the applicable legislation.
- 3.3 The problem is compounded by the fact that capacity, both to plan and implement plans in municipalities remain a challenge. Therefore, the project provides an opportunity for the Department to assist the municipality with meeting the legislative requirements that govern the preparation of Spatial Development Frameworks and provide a plan to guide the spatial transformation of the Nongoma Local Municipality.
- 3.4 SDFs are frameworks that seek to influence the overall spatial distribution of current and future land use within a municipality in order to give effect to the vision, goals and objectives of the municipal Integrated development Plan (IDP).
- 3.5 While SDFs along with sector plans are integral to a complete IDP, it should be noted that SDFs are also integrative instruments of municipal management.
- 3.6 In this commonality some confusion has arisen regarding the respective roles and content of SDFs and IDPs. The essential distinction lies in the focus of SDFs on spatial considerations while IDPs deal with the full scope of municipal management including budgeting, institutional resourcing, etc. An SDF has a longer time horizon than an IDP and therefore the SDF should provide the long-term spatial context for the IDP.
- 3.7 The SDF is more than the spatial representation of the sector plans of IDP, it needs to set the spatial strategy. The key spatial plan of the SDF and the spatial perspective as well as the short term (5 year) spatial priorities should be incorporated in the IDP as the SDF sector plan.

4 PROJECT BACKGROUND

- 4.1 The Department of Agriculture Land Reform and Rural Development received a request from the Nongoma Local Municipality to provide financial support for the development of a Spatial Development Framework for its Municipal area in line with the provisions of the Spatial Planning and Land Use Management Act No 16 of 2013.
- 4.2 Section 21 of SPLUMA sets out the content of a Municipal SDF which must be incorporated within the development of the SDF.
- 4.3 KZN COGTA conducts an annual assessment of Municipal IDP's, in which Municipal SDFs are assessed as a key component to the IDP. The outcomes of the assessment in which the department is involved indicates that the Nongoma LM SDF is partially compliant with the provisions of section 21 of SPLUMA hence the need to assist the municipality in ensuring compliance with the relevant legislation related to the development of SDFs.

5 LOCATIONAL CONTEXT – PROJECT AREA

- 5.1 Nongoma Municipality is situated in Northern KwaZulu-Natal and situated on the eastern side of the Zululand District Municipality.
- 5.2 Nongoma Municipality is one of five local Municipalities in the Zululand District Municipality namely: eDumbe, uPhongolo, Abaqulusi and Ulundi and Nongoma local municipalities.
- 5.3 The Nongoma Municipality's land area is approximately 2,184 km². According to the 2011 Stats SA Census, the population of Nongoma totaled 211 892 people. Noting Zululand had a total population of 892,310 people as per community survey 2016 data.
- 5.4 Nongoma Local Municipality consists of twenty-one (21) wards and 42 Councilors as a result participation and consultation will need to be addressed in a clear manner in the Communication Plan.
- 5.5 The municipality also has three Traditional Authorities namely Usuthu, Matheni and Mandlakazi Traditional Council and there are 363 settlements, only one of which (Nongoma) has some urban characteristics whilst 98.34% of the population lives in rural areas. The Ingonyama Trust land, which tends to have little development and a legacy of impoverishment and dependency on social grants.
- 5.6 The main centre is Nongoma Town, but there are also other smaller nodal areas of convergence which act as rural service centres. Regional linkages to the municipality are facilitated mainly through the R66 which links to Ulundi to the east and uPhongolo to the west as well as the R618 which links with Vryheid to the west and Hlabisa southeast. The SDF contributes towards the spatial transformation and development of the municipality as a functional, sustainable and generative administrative and economic region.

6 THE OBJECTIVES OF THE PROJECT

- 6.1 The Primary objective of the project is to develop a credible SDF for the Nongoma Local Municipality that is legally compliant with the relevant legislation i.e., SPLUMA and MSA, AND to develop a spatial tool that can be implemented to achieve the desired spatial form envisioned for the Nongoma Local Municipality.
- 6.2 The credibility of the SDF will hinge upon a sound, empirical analysis of the municipal area of jurisdiction by using the Census 2022 data from STATSSA.
