3.2. Hessequa Municipality needs to update and amend its 2017 MSDF to align with the 5-year term of the planned IDP 2022-2027. A 2023 Status Quo Report was developed inhouse by Hessequa Municipality with assistance from DEA&DP Spatial Planning.

3.3. The following spatial challenges have to be addressed in the Hessequa Municipal Area: urbanization, population growth, inadequate infrastructure, environmental sustainability and even social inequality.

(a) **Housing:** Due to Hessequa’s stabilizing population numbers, and the diminishing allocations to provide top-structures or subsidized housing, the

municipality is positioned to exploring alternative solutions to solving the housing and land access challenges within the municipality.

- (b) **Economic:** Towns like Stilbaai as the tourism and lifestyle settlement of choice by leveraging existing momentum of people moving to this settlement. Determine what services or facilities are needed that would encourage people to settle (such as private medical needs) and seek out providers to locate in Stilbaai as part of the economic, and tourism strategy. Longer term aspirations, such as the Heidelberg Industrial Development, Agro-processing and Green Industry zone need pre-feasibility and feasibility studies and enabling institutional and governance structures to be put in place to realize.
- (c) **Agriculture:** Although the agricultural sector is currently creating the greatest source of jobs, the situation could change due to economic and climatological reasons that will result in large-scale unemployment. For this reason, the tourism industry provides a potential economic lifeline for much of the study area's population. One of the corner stones of achieving integrated sustainable development to address the challenges facing the agricultural and tourism industry is highlighting the economic forces behind these sectors.
- (d) **Water:** Heidelberg, Witsand and Slangrivier have challenges in terms of Water Quality and Storage Capacity
- (e) **Invest in Sustainable Infrastructure Solutions:** There are an array of potential infrastructure solutions that can put the municipality on a better financial sustainability and resilience footing. These include determining the feasibility of water re-use technology upgrades at the Waste Water Treatment Works (WWTW), as well as to implement or attract electricity-diversification initiatives that decrease reliance on Eskom as the sole electricity provider. Longer term aspirations, such as the Heidelberg Industrial Development, Agroprocessing and Green Industry zone need pre-feasibility and feasibility studies and enabling institutional and governance structures to be put in place to realize.

The preparation of this new MSDF must focus on using the 2023 status quo report to assist update the current town development proposals where required, updating policies, guidance, proposals and setting out an implementation plan that can be monitored and evaluated. The aim will be set the foundations for the be developed Capital Expenditure Framework and Implementation Plan. Particular focus should be paid to taking forward the provisions in 27(1) of SPLUMA to support better implementation of the MSDF through strengthening its relationship with the Municipality's Land Use Management Scheme.

The Service Provider must ensure that any outstanding PPP is fulfilled, such as the 60 day commenting period.
- 4.12. The National DALRRD published a manual on the preparation of SDFs titled “SDF Guidelines: Guidelines for the Development of Provincial, Regional and Municipal Spatial Development Frameworks and Precinct Plans” in an attempt to guide the development of SPLUMA compliant Spatial Development Frameworks (*website link: [http://mfma.treasury.gov.za/Documents/08.%20Planning,%20Budgeting%20and%20Reporting%20Reforms/Document%20Repository/Planning%20Reforms/SDF%20guidelines%2027-06-2017%20\(4\).pdf](http://mfma.treasury.gov.za/Documents/08.%20Planning,%20Budgeting%20and%20Reporting%20Reforms/Document%20Repository/Planning%20Reforms/SDF%20guidelines%2027-06-2017%20(4).pdf)*).
